

FINANCIAL ITEMS

Square 1 Bank Cube

The corporate services division of a bank needed a recognition item to give to individuals involved in closing large financial deals. They wanted a design specifically tied to their bank that could be used at the close of each deal, with the goal for each recipient to collect as many as possible. Playing around with the name of the bank, Square 1 Bank, the idea of a red cube with the number "1" etched on all 4 sides worked perfectly. The top was left for the details of each deal that was completed.

Celebrating Growth & Investment

After opening a new branch location, Bryn Mawr Trust wanted to help employees, shareholders and clients celebrate the milestone. Using a photo from the grand opening we were able to etch the buildings image, including Bryn Mawr Trust's iconic clock into an alabaster marble coaster. Creating an affordable, yet effective celebratory gift.

Credit Union of New Jersey

A credit union was looking for a fun way to present their company values with a piece that would stay on someone's desk. Based on their logo we created a desk puzzle that played on the shape and the colors of that logo using our ability to Pantone match stone colors. Each piece was etched with a portion of the values so when all were in place the entire values statement could be read.
